Key SGMA elements

- Basins must be managed by GSAs
 - The White Wolf GSA formed in 2017
- GSAs must develop GSPs; GSPs for medium priority basins like the White Wolf Subbasin are due January 2022
 - White Wolf GSA is working to draft chapters of the GSP
- Basins must achieve clearly-defined sustainability criteria within 20 years of GSP adoption
 - Performance assessment: The GSP will be updated and reviewed every five years.
